PROFESSIONAL SUMMARY

Results-driven BCA student and Web Development intern with hands-on experience building responsive, user-centric web applications using HTML5, CSS3, and JavaScript. Recognized as a Top Performer in the CodeX Coding Competition at SRMU. Completed a virtual internship at CodSoft, contributing to real-world projects with a focus on performance, usability, and clean code. Strong foundation in DSA, Git/GitHub, and Agile workflows. Eager to contribute as a Fresher Web Developer or IT Associate.

INTERNSHIP EXPERIENCE

Web Development Intern | CodSoft (Virtual)

Apr 2026 – May 2026

- Built and deployed multiple responsive web projects using HTML5, CSS3, and JavaScript (ES6+).
- Implemented cross-browser compatible, mobile-first layouts using Flexbox and CSS Grid.
- Integrated interactive UI components and validated forms with vanilla JavaScript.
- Managed source code with Git and GitHub, following best practices for version control and commits.
- Received 'Wonderful Remarks' from CodSoft for exceptional performance and contribution to projects.

PROJECTS

AI-Powered Resume Builder with ATS Score Optimization

2025 | Personal Project

- Developed a dynamic web-based resume builder featuring real-time preview and live editing functionality.
- Implemented an ATS-based scoring system using keyword matching and optimization algorithms to improve resume ranking.
- Designed a fully responsive UI with HTML, CSS, and JavaScript, focusing on performance and usability.

TECHNICAL SKILLS
